

# ***Doctoral Assistant***

The **Swiss Institute for Empirical Economic Research** of the **University of St.Gallen** is looking for a

## **Research and Teaching Assistant.**

The position will start February 2020, or later. The successful candidate will start her/his academic career in a challenging PhD programme ([www.pef.unisg.ch](http://www.pef.unisg.ch)) and participate in the teaching and research activities of the applied economics and econometrics team of *Professor Michael Lechner*.

In addition to an excellent master degree in economics or a related field, strong quantitative and programming skills are important. Furthermore, the candidate's research interests should be in labour economics, sports economics, or in related fields, as well as in microeconometrics (incl. machine learning).

For further information, see our webpages or contact us directly. If you are interested, please send your application by email to [Michael Lechner](mailto:Michael.Lechner@unisg.ch). Although there is no formal deadline, early applications are encouraged.
